PROFESSIONAL SUMMARY

AWS Certified Cloud Practitioner and MCA graduate with hands-on experience in AWS services including EC2, S3, IAM, VPC, and CloudWatch. Strong foundation in cloud infrastructure, Linux, and DevOps fundamentals. Seeking an entry-level AWS Cloud / DevOps Engineer role to build secure and scalable cloud solutions**.**

TECHNICAL SKILLS

Cloud Platform : AWS (EC2, S3, IAM, VPC, RDS, CloudWatch)
perating System : Linux (Ubuntu) , File & folder operations (mkdir, cp, mv, touch)
DevOps & Tools : CI/CD pipeline fundamentals & Docker (basic containerization), Git & GitHub (branching, merging, push/pull)
Programming & Databas : Java & MySQL - WHERE, GROUP BY, HAVING ,Joins & Aggregate functions

PROJECTS

Project: Certificate-Based Authentication using Easy-RSA on Ubuntu EC2

- Implemented certificate-based authentication using Easy-RSA on Ubuntu EC2 to enable secure, password-less access.
- Created and managed a Public Key Infrastructure (PKI) including Certificate Authority (CA)**,** server certificates, client certificates, and private keys.
- Generated and signed server and client certificates to support secure SSL/TLS communication.
- Configured Diffie-Hellman parameters (DH) and Certificate Revocation List (CRL) for enhanced security.
- Integrated certificates with OpenVPN to ensure encrypted and authenticated connections.
- Used PuTTY and WinSCP for secure instance access and certificate management.

Project : SheGuard Smart Women Safety & Emergency Response System

Tech Stack: Java, Kotlin, Android SDK, Google Maps API, Git, GitHub

- Designed and developed a real-time emergency response Android application.
- Integrated Google Maps API for live tracking and nearby help center detection.
- Implemented GPS-based location sharing with SOS functionality.
- Followed Android lifecycle management and runtime permission handling.
- Used Git for version control and managed source code via GitHub repository.

Work Experience / TRAINING

AWS Cloud Trainee | TATA STRIVE | (Oct 2025 – February 2026)

- Provisioned and managed EC2 instances, key pairs, and security groups. Designed and implemented VPC architecture with public and private subnets
- Configured Elastic Load Balancer and Auto Scaling Groups for high availability, Managed object storage using Amazon S3 and integrated it with EC2-based applications
- Implemented IAM users, roles, and policies following least-privilege access, Set up CloudWatch monitoring and logs for resource performance and alerts
- Worked on real-world, project-based scenarios simulating production environments

Certifications

- **AWS Certified Cloud Practitioner (CLF-C02)** – *Amazon Web Services (AWS)*
- **AWS re/Start Graduate** – Amazon Web Services (AWS)
- Introduction to Programming Using Java
- Tata Consultancy Services- ESG Job Simulation
- VM ware Certification

EDUCATION

Master of Computer Applications (MCA) | Vijayanagara Sri Krishnadevaraya University, Bellary **| 75% |** Feb 2023 / Jan 2025
Bachelor of Computer Applications(BCA) | B V V S Science College Bagalkote **| 79% |**May 2019 / Sep 2022

LANGUAGES

Kannada(Native), English(Professional), Telugu(Working Proficiency), Hindi(Working Proficiency)

Hobbies: Drawing, Playing Cricket, Playing Chess, Exploring Cloud Technologies.
